Good morning [redacted]

b6 -2

I am [redacted] Coordinator of the Prepublication Review Office. My office's function is to review intended publications by current/former FBI employees to determine if the employee has included information obtained during FBI employment, which should not otherwise be released. Examples would be classified information, Rule 6e, sensitive techniques, pending investigations or prosecutions, personal privacy info, FBI information not available to the general public through means such as FOIPA, the media or court records, etc.

b6 -2

As is more common than not, it is necessary that we call upon FBI "subject matter experts" to review the submissions of current/former FBI employees as the subject matter at issue is beyond the general expertise of my employees. It is in that regard, that I am contacting you.

I am faxing three pages of a television pilot by SA Jim Clemente and his brother, Tim Clemente. In the TV pilot, it makes mention of a sensitive technique. Is this something that is releasable or should any mention of it be taken out. I will also include the e-mail from the writers in the fax.

General Rules-We have 30 business days to respond to the author. We would like to respond to the requester as soon as we can. Also, as the material is proprietary information, it is not to be disclosed/shared beyond those persons involved in the review process.
